

Take Down the Cell Tower Citizens' Action Group

(September 30/08)

Please Join Us and Listen to our story!!

**Information Gathering – Sunday, October
5th at 2 p.m. to 4 p.m. – in front of the Cell
Tower on 42 Lansdowne Street West**

**It's Time to Take more Action – We are asking all of
the Federal Candidates for their support in our quest to
remove the cell tower from our back yards.**

- TELUS approached Ptbo City Hall in Feb 07 with a proposal to install 3 cell phone towers within our City
- In our neighbour, (only one to end up with a cell tower!) residents were not adequately notified or properly consulted and notices were only sent to 30 residents living **within 108 metres** of the tower
- Recent international studies who that over a 5 – 7 year period, residents living **within 400 metres** of a cell tower **increases cancer rates by 3 – 5 times**
- **Most residents impacted by this 400 metre radius were NOT notified or consulted**
- This cell phone tower emits microwave radiation on a 24/7 basis
- In May we were successful in making a good impression at Peterborough City Council obtaining their support. The City wrote a letter to Industry Canada asking them to remove the tower!
- We have received a letter back from Industry Canada putting the ball back into the hands of our City Council and our Federal politicians.
- Please come and hear what we have to say and learn how to help our struggle to ensure that **NO** resident in Peterborough has to live near a cell phone tower!

**Bring your families and hear what we have to say about this
health risk put into our backyards!**
